

- 1 1. A garment comprising:
2 a belt portion for encompassing the waist of a wearer,
3 a pants panel portion having a right leg portion and a left leg portion attached to
4 the belt portion, for covering the front of a pair of pants,
5 the pants panel portion having attachment means for selectively attaching a
6 pocket to the garment for storage of articles,
7 the left leg portion and right leg portion having knee pad pockets, and knee pads
8 for insertion into the knee pad pockets for protecting the knees of the wearer when
9 kneeling,
10 a strap on the right leg portion and a strap on the left leg portion for encircling the
11 right and left legs of the wearer above the knee to keep the garment in place over the
12 wearer's legs,
13 a strap on the right leg portion and a strap on the left leg portion for encircling the
14 right and left legs of the wearer below the knee to keep the garment in place over the
15 wearer's legs.
